### Summary

Backend-focused Web Application Developer with 1.5 years of hands-on experience. Skilled in building secure, scalable, and efficient systems using Django, React, Tailwind CSS, Next.js, and MySQL. Delivered real-world solutions for blockchain, DAO, and NFT ecosystems. Adept at designing performant APIs and collaborating with teams to ship features quickly and reliably.

### Work Experience

AlphaDAO — Backend Developer (2025 – Present)

- Lead backend development for a Tap-to-Earn NFT project, enabling thousands of users to interact with blockchain-based assets.
- Built secure Django REST APIs for authentication, reward mechanisms, and wallet integration.

Teies DAO — Backend Developer (2025 – Present)

- Developed robust backend infrastructure to support DAO governance and smart contract interactions.
- Improved API response time by optimizing MySQL queries and backend logic.

### Education

APTECH — Diploma in Web Application Development (Graduated: 2024)

### Technical Skills

Languages & Frameworks: Django, React.js, Next.js, TailwindCSS, MySQL, JavaScript, Python  
Tools: Git, GitHub, Postman, VS Code

### Projects

Tap-to-Earn NFT Platform

Developed a gamified web application that rewards users for blockchain-based interactions. Integrated secure wallet auth, real-time user tracking, and reward logic. Tech Stack: Django, MySQL, TailwindCSS
